Dear Ally,

It occurs to me that I impose on you by turning up, demanding time at short notice and then having nothing more consequential to say than I had yesterday. Excuse it please.

Re your expedition to the North Pole: That's a dull place but, on your way there be sure to spend some time along the West Coast of Greenland, especially around Disko Bay, which is the most spectacular part of the world I've yet seen.

Hope you can manage the Pole and reunion too.

Sincerely,

Ed
